

## **Junior Programmer**

Canadian Energy Services is a dynamic and growing oilfield services company listed on the TSX as CEU. It is one of the largest drilling fluid systems providers in Canada and is focused on being the leading provider of technically advanced chemical solutions throughout the life-cycle of the oilfield.

Canadian Energy Services is looking for a motivated, enthusiastic, and organized individual to fill the position of **Junior Programmer**. This full time, diverse position is located in Calgary, Alberta and will report to the **Team Lead, Operations Data Systems** within the Operations Group. Hours of work include 8:00 am to 4:30 pm (overtime may be required).

### **Responsibilities Include:**

- Build applications in VB.Net/C#.Net and ASP.Net.
- Part of an on-call group to share support for Operations systems.
- Testing functionality of applications.
- Create and maintain documentation.
- Work with Subject Matter Experts and other ODS Team members to ensure timely delivery of functional applications.
- Complete special projects, as assigned

### **Qualifications Include:**

#### **Required:**

- 2-3 years' experience in software development with a focus on C# or VB.Net, and SQL Server.
- Experience with a Source Control System.
- Great communication skills, both verbal and written.

#### **Nice to have:**

- Oil & Gas experience would be an asset.
- Experience with Team Foundation Server would be an asset.
- Experience with SSRS would be an asset.
- Experience with HTML and PHP or ASP.Net would be an asset.
- Experience with Dev Express tools.

Canadian Energy Services offers our employees a competitive salary and benefits package commensurate with experience. Please send your resume and cover letter in confidence to [hr@ceslp.ca](mailto:hr@ceslp.ca). We thank all applicants for their interest; however we will only contact those individuals who qualify for an interview.

**No Phone Calls Please**
