

Chemist/Lab Technician – Drayton Valley, AB

Canadian Energy Services & Technology Corp is a leading provider of technically advanced consumable chemical solutions throughout the life-cycle of the oilfield.

PureChem Services (<http://purechemservices.com/>), division of CES provides products to the Drilling Fluids, Production Chemical, Stimulation and Fracturing industries.

The **PureChem Services** laboratory in Drayton Valley is focused on customer support, product selection, product development and special technical projects. Our lab is equipped with a growing variety of equipment and instrumentation focused primarily on sample analysis and product performance testing.

The **Lab Technician** will cover assorted oil field testing in the laboratory environment with occasional field work being required. Working in a fast-paced dynamic environment, the duties of the Lab Technician may include (depending on experience level):

- QC testing of raw materials and products
- Analytical testing
- Report writing
- Trouble-shooting of technical problems
- Field testing and support
- R&D of new products
- Making and testing lab batches of new and existing products
- Bench testing of field samples
- Technical support for our full product range

The right candidate will have a proven track record encompassing the following qualifications and skills:

- Preference will be given to those applicants with a science background and/or some level of post-secondary technical training.
- Relevant industry or related experience may be considered in place of formal training.
- Strong computer and writing skills are preferred.
- Demonstrated ability to work in a dynamic, fast-paced environment.
- Excellent interpersonal, written, and verbal communication skills.
- Experience with MS Excel and Word.
- Strong statistical analysis skills.

PureChem Services offers our employees a competitive salary and benefits package commensurate with

experience and education. Please send your resume and cover letter in confidence to hr@ceslp.ca with **PureChem Lab Tech** as the subject.

We thank all applicants for their interest; however we will only contact those individuals who qualify for an interview.
